

Faster, easier, secure, cost-effective interoperability:  
Simplex CDE

## Interoperability made easy - HL7 Engine

### Ready-to-Run Deployment Platform

With a simple management control panel and purpose-built management tools, our deployment platform is reliable and cost-efficient.

Options available for hardware, virtual on-premise, and hosted environments, all built using the custom built plugins.

## Easy, effective health information exchange.

Achieve interoperability, to thrive in the new era of value-based care.

Exchange health information easily, while promoting accountable care.

Attain compliance (and rest easier), in the face of changing healthcare initiatives.

**Best of all? Rely on our expertise and proven solutions to get up and running quickly and efficiently — with a lower total cost of ownership and without disrupting clinician workflow.**
